

SQUIRRELS

Did you know that a squirrel carries both a blanket and an umbrella with it everywhere it goes? God has given the squirrel a big, bushy tail and has shown the squirrel how to use it.

When it is very cold, squirrels curl up and wrap their tails around them. The fur on the bushy tail keeps them warm. When the sun is hot, squirrels can place their tails over their heads in the same way we would use an umbrella. Their bushy tails shield them from the sun.

Squirrels must be very thankful for their bushy tails.
